## About Magna Design

Magna Design furniture has a long history of exceptional design and quality construction, dating back over 50 years. Now, after a brief hiatus in production, these premium products are available through a network of highly-experienced dealers across the US.

# Magna Design

Magna Design is committed to the fine craftsmanship of modular casegoods and conferencing solutions.

The combination of select hardwood edges with the superior performance of modern laminate technologies produces furniture lines that transcend classical concerns and meet contemporary expectations.

Freestanding, easy to modify and specify, Magna Design's comprehensive product solutions meet the demands of the modern workplace - *masterfully designed, mindfully made.*

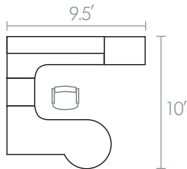

# Mod Eight

Substance, durability and style harmonize in the commanding, yet timeless, presence of Mod Eight. A comprehensive private office collection, Mod Eight offers flexible configurations with compelling desk shapes and freestanding modular storage options for smart organization. The refined design of grain-through WoodPlus edges, select hardwood edges, metal pulls and glass-paned doors provide an enduring aesthetic and a lifetime of performance.

## Series Fifty

Tailored and trim, Series Fifty emanates professionalism. The freestanding components are flexible enough to transit between large- and small-scale private offices. Series Fifty's clean, crisp profile is complemented by a contemporary column leg and hutches that may be set high or low. Efficient desk shapes and fixed personal storage make Series Fifty the perfect fit for an engaging space that meets the needs of today's workstyles.

Conferencing Solutions

A fusion of artistry and technology create uncompromising value in Magna's conferencing centerpieces. The seamless transition between handcrafted hardwood edges and new age composite surfaces surpass the performance of traditional veneers. Our tables offer bay doors, integrated power, data raceways and abundant media storage. Available in a variety of shapes, sizes and flexible footprints, Magna's conference solutions provide executive level style and the durability you expect.

EDGES

Magna casegoods and conference lines are available in a variety of edge profiles with different thickness options. WoodPlus™ is a unique European 3mm PVC edge that exemplifies long-term performance with the grain-through appearance of wood. Magna also offers natural hardwood edge options that are finished in an environmentally preferred water-based stain and clear topcoat process. Edge profiles are designed to meet a variety of stylistic preferences.
